An scientia moralis sit nobilior quam scientia iuris civilis vel canonici vide per panor. in d. pro. pho. in vi colu.

Scientia iuris canonici simpliciter non subiicitur ethi. sed metaphysice et theologie in quantum tractat de deo nam tractatus iuris canonici pro maiori parte dirigit nos in deum non tamen propter hoc dicendum est quod scientia iuris canonici sit idem cum theologia quia theologia tractat principaliter de deo et que sunt homo expectat et sperat a deo. Scientia vero iuris canonici tractat principaliter de homine optimo qualiter bene vivendo possit beatificari. Ex quo infertur quod scientia iuris canonici non est mere practica sicut ius civile quia partim est speculativa in qua assumit partem de theologia et metaphysica. Est ergo hec scientia iuris canonici quoddam mixtum partim capiens ex theologia in quantum intendit in finem eterne beatitudinis et partim est civilis in quantum tractat de temporalibus sine quibus spiritualia diu esse non possent. Ex quo patet excellentia scientie iuris civilis ad ius canonicum sicut se ut anima et corpus de quo dico in glossa ius et de pmis sis vide panor. in d. pro. pho. in vi colu.
